DEPARTMENT CLERKS.

TWENTY DAYS WILL BE THEIR ANNUAL LEAVE OF ABSENCE.

Mentioned for Official Position, and That is All—A SHI Hout is the Twing—Remarkable Snake-Beasts Rout.

Washington—National News.

WASHINGTON, July 15.—There is a lively discussion among department clerks about the proposed reduction of the annual leave of absence from thirty to twenty days. The law does not require that thirty days' leave of absence shall be given each clerk. It simply says that the heads of the department may give leave of absence to the clerks for a sum not less than thirty dollars in any one year. At this time is lost by clerks on account of sickness is not counted, but they have to furnish a certificate of a physician showing that they really were sick.

In the past certain physicians have been very liberal in the time they give for certificates which was asked for. Now there has been more care about such matters during the past four months. It is alleged by the clerks that the proposed reduction of from thirty to twenty days will be a heavy blow to the heads of departments by certain chief of divisions who have notoriously lost a great deal of time themselves, as a means to make themselves regarded as reformers. The clerks has a discussion of the subject at two meetings, but no conclusion has been reached.

It is more likely, however, that, for this year, at least, there will be a reduction of four days, but not after the work is done, a more formal condition the old rule will be followed. There will be no limit made on the number of days a clerk can lose by sickness during the year.

In the past, cases in the department, where clerks have lost three man-days in four or five years, and, indeed, more than that amount of time, have been more numerous than the annual leave may be expected.

The friends of ex-Representative William Mutchler, of Pennsylvania, are anxious that it shall not be understood that he was an applicant for the position of first assistant attorney-general while ex-Senator George Stevenson of Illinois, was recently appointed. They say that Mr. Mutchler would have taken that position if he had been offered him, but that he was not an applicant for it. Dr. R. G. Thompson, of Louisville, Money, of Mississippi, and Talbot, Maryland, have been unfortunate, having been named for a number of places, but have not been successful in getting any of them. They have all been frequently named for positions in the postoffice department. There were a number of persons who were almost certain that Mr. Thompson would become postmaster general. Failing in that, they are equally anxious that he would be made first assistant postmaster general. After he failed in the was variously named for positions, some of which Mr. Thompson would hardly accept if he were offered them.

Mr. John G. Thompson, of Ohio, was frequently mentioned as a possible secretary of the interior. When Senator Lamar was announced as the new place was selected by Mr. Thompson's friends. After his name was named to be as freely used for positions of various kinds and grades as either of the two gentlemen named above. The last place that rumor has given Mr. Thompson is chief of a division in the pension office.

The history of appointments made by President Cleveland so far has been that he submits two reports to him as answer to the right of the Senate, and then the newspapers have had the best chance in picking up anything. Applicants are beginning to recognize this, and still hunt are now the order of the day. The hotel registers show a considerable number of arrivals, and it is not uncommon for a man who will commit, to newspaper offices, that he has the slightest interest in any appointment.

The Dolphin.

NEW YORK, July 15.—John Roach submits two reports made to him as answer to the right of the Senate, and then the newspapers have had the best chance in picking up anything. Applicants are beginning to recognize this, and still hunt are now the order of the day. The hotel registers show a considerable number of arrivals, and it is not uncommon for a man who will commit, to newspaper offices, that he has the slightest interest in any appointment.

The Dolphin.

NEW YORK, July 15.—John Roach submits two reports made to him as answer to the right of the Senate, and then the newspapers have had the best chance in picking up anything. Applicants are beginning to recognize this, and still hunt are now the order of the day.

To the charge of shifting of ballast and coal altered the vessel's shape so that her crank pin heated, they do not believe it. Lewis, Parker, Fletcher and Taylor certify that the last trip on the "Dolphin" the Dolphin average of three and one-half tons per Parker, Capt. Bolger, Capt. Morton and Capt. Sunberg certify that she averaged a trifle under fourteen knots for six hours on the trip.

They examined the Dolphin in the Erie Dry dock and say that she is very strong; but that there is not the slightest evidence that she is structurally bad.

As to the charge, that she shifted ballast and coal when she was in the Erie Dry dock and say that she is very strong; but that there is not the slightest evidence that she is structurally bad.

THE EVENING BULLETIN

WEDNESDAY, JULY 15, 1885.

JOHN G. THOMPSON, of Ohio, is to be made Chief of the Record Division in the Pension office.

SWIFT's Iron and Steel Mills, which employs three hundred men, has resumed work, at Cincinnati.

The import for the past fiscal year aggregated \$560,295 and the exports \$731,581,023. Excess of exports, \$161,285,259.

There were 1,118 new cases of cholera in Spain Monday and 667 deaths. There have been 30,000 cases and 13,000 deaths in Spain.

Reports from McGregor say that General Grant is bright and his spirits improved, as has been the case every Monday for four weeks.

MESSRS. BUSH, HART, W. A. Johnson, Ben Holt, James Allen and Mike Murray have been appointed to places in the Revenue service in Bourbon County.

Tug World's Exposition plant—building and machinery—were sold at auction for \$175,000. They were bid in by Mr. Newman, who were probably purchased for the new exposition company.

It is said that the Republicans will make a still hunt for the State Treasurer's office. The Democratic vote in August will not be large and the Republican vote will be polled to a man. Democrats can form their own conclusions.

CLAUDE CARE, of Lexington, has been notified that he will receive \$5,000 for his share of the work of ensnaring and capturing the notorious counterfeiter Alonzo Fugate, who was recently apprehended in Woodford County.

Ir is decided that Company C. of the Louisville Legion is to go to Letcher to act as a guard while Judge Jackson is holding a special term of court. Whitesburg, the county seat of Letcher, is one hundred and twenty miles from the nearest railroad station.

CONTROLLER DURHAM has decided that the erroneously dated \$50 compound interest treasury note recently redeemed by Treasurer Jordan is genuine, and that it conforms with requirements of the act of June 30. There are still outstanding about 10,000 of these notes.

DESPATCHES received here this morning indicate that Mr. W. A. Norton announces a decline in consols of one and one-eighth, owing to war news, which has had the effect of advancing the grain and provision markets, an advance of a cent and a quarter this morning having already taken place.

RELIABLE information has been received at Frankfort, that Collector Robinson will appoint Major Alex. Grant, Henry Duvall, son of Judge Alvin Duvall, Grant Green, Jr., Edward Meagher and William French, all of Frankfort, as storekeepers of the Seventh Internal Revenue District.

GENERAL WADE Hampton has written a long letter to the Charleston (S. C.) News and Courier, correcting errors in Johnston's description of the battle of Manassas. He shows that the Hampton Legion, 600 strong, which he commanded, arrested the victorious columns of Sherman, and so delayed the Federal advance until Confederate reinforcements came up.

The Republicans have decided not to nominate a candidate for State Treasurer, and will very likely support Judge Fontaine T. Fox for the place. The Democratic authorities in each county are looking closely to the party organization and are making the effort to bring out every Democratic voter at the August election. Every Democrat ought to make it his duty to record his vote.

THE COURIER says: "The progress in the ratios of comparative bank dealings in the United States in the last three weeks has been very handsome. Three weeks ago the clearings in the cities other than New York exceeded the corresponding aggregate last year by 1.9 per cent. Two weeks ago that excess was increased by more than 100 per cent, and last week it was increased by about 700 per cent. The gain in Louisville last week was equalled by only one city in the United States."

We Would Be.

(Hartford Post.)

It is always well to make some allowances for vacation time when loves are so thoroughly occupied that it is difficult to pin them down to any useful employment.

"Now, James," remarked Mr. Taftroy, Sr., at the breakfast table, "vacation has fairly begun. You will help your mother all you can and keep the yard looking slick and clean."

"Yes, sir," replied Jimmie, with enthusiasm, "I'll be round here, but I've got two ball games every day, and I'm goin' in swimmin' and goin' to have lots o' fun with the fellers. If I get any time I'll help the old lady."

"The old lady?" interrupted his mother, and all the boys asked Jimmie what made his ear so red that day.

THEY WANT "BIG TALK."

The Cheyenne, *Custer*, *Indian*, *Excite*, *Stealing*, *Indian*, *Excite*, *Stealing*, *Chief*, *Horses* and *Males*. WICHITA, Kan., July 15.—Telegrams from the Indian Territory say the excitement is hourly increasing. The Cheyenne for three or four days have been going in bands of twenty to fifty. Some of these bands have been in the country so long as to be impossible to tell how many are away.

The bridge across the river between the fort and the agency is being pushed rapidly. The Indians are said to have laid stone in the ranch of the C. & A. cattle company, having in their possession a herd of stolen mules and horses. They forced the ranchmen to get them something to eat, and then took it away.

Another band was seen with a lot of stock within twenty miles of Camp Supply. Stock from the Panhandle of Texas is already making its appearance among the Indians.

No doubt some of the Indians, who have been here for months, are the same.

Colonel Chapman, commander of the fort, accompanied by his infernal wife, has arrived at Darlington to act with Commanchee Armstrong. The Indians were anxious to discover the intentions of the government toward them, and express more than a little desire for a "big talk." Four or five hundred loads of stores, principally of the Eleventh Infantry, passed through Wichita going to the front.

On the Front.

WICHITA, Kan., July 15.—Gen. Sheridan, Gen. Miles, Col. Sheridan and Maj. Corliss, of Miles' staff have passed through here, en route for Fort Root. They will reach the front in twelve hours. Everything is quiet here. Another detachment of troops have gone through for Crossfield.

SHOOTING AFFRAY.

Over a Matter of Money Relatives Have a Fatal Fight.

St. JOSEPH, Mo., July 15.—Charles J. Sherburne, a young man fatally shot by his brother-in-law, John Ryan of Leavenworth, Kan. The difficulty came up in a saloon, over some money Ryan had advanced.

John Sherburne drew a large .38 revolver after Davis had killed him once, and the pistol was near Davis that his pants were burned. The ball entered the abdomen and ranged downward and to the right. It was necessary to amputate both legs.

Ryan came from Leavenworth on the evening train and went at once to the saloon, where Davis was drinking. The wounded man, who sides with his brother, is now in a critical condition, and the understanding of all the parties is poor, and considerable excitement has been created on account of the affair. Both men have large families.

A Steamboat Captain's Idea.

(Ottoman Empire.)

The renowned Toothpick Ben, while in Lexington the other day, was asked which, in his opinion, was the prettier, a beautiful woman or a steamer? "Nah," he replied.

"The prettier woman on earth is a steamboat full of suckers, with the captain all right."

NEWS BREVITIES.

Nutshelled and Narrowed Down for Condensed Perusal.

Builders' laborers' strike at Toronto terminated.

Annual convention of United Nailers at Rochester.

Fifteen deaths from small-pox in Montreal suburbs in the past week.

Final points at issue in the weavers' strike at Falls of Schuykill, adjusted, and work resumes.

FINANCIAL AND COMMERCIAL.

Quotations of the Stock, Produce and Capital Markets, July 14.

New York—Mower, 1½ per cent. Exchange gold, 1½ per cent; four coupon, 12½ bid; four-and-a-half, 11½ bid.

The stock market is rather weak at the opening, but may find a firmer basis during the day, with Lake Shore of 14 per cent.

The excess was quickly followed away upward in movement in Louisiana, Ohio, Shore and Lake Pacific, the first mentioned ad-

vancing 1½ per cent. The general list followed with an advance of 1½ to 2 per cent.

After a short interval the market declined, which prior to near the opening quotations Western Union and New York Central did not participate in the early upward movement, but followed the lead of the other lines. At 10 o'clock the market is heavy at quotations, a shade below the opening. The market has been active, with total sales first hour of 125,000 shares.

EAST SAGINAW STRIKE.

THE MEN EXHIBITING A SULLEN DETERMINATION TO STAND.

Representative Harry Arrested and Lodged in Jail—Trouble Ahead in Pittsburgh. Lively in Cleveland—McKeever. Lively in Kittington—Labor Notes.

EAST SAGINAW, Mich., July 15.—The strikers are very quiet, but few are on the streets. They are exhibiting a sullen determination. A posse of seventeen Pinkerton men have arrived, in addition to those here. The water-works are still guarded by a squad of riflemen. Representative Harry was to have addressed a meeting in the Knights of Labor hall, but did not materialize, having been prevented from doing so by the police and taken to jail. When the crowd was informed of this they said there was no jail here that could hold him. It is understood his bail is fixed at two thousand dollars and State Senator Davenport agrees to become one of his bondsmen. Sam & Holland's mill and the Saginaw Salt and Lumber Company mill tried to start up on the old time and old wages, but neither could get a crew of men.

Lively in Cleveland.

CLEVELAND, July 15.—Some of the strikers are much livelier now and the streets of the Eighteenth ward were crowded with them by to-morrow morning a demonstration gathered at the mill plate at 6 o'clock to witness its starting. About forty men went to work under police protection in the puddling department. Only five went to work in the plate department. This force was hardly inadequate, and was soon sent home. Gorush, the Hobbistic speaker arrested, was bound over from the police court to the common please court, in three thousand dollars bail for inciting riot.

In Pittsburg.

PITTSBURG, July 15.—It is feared serious trouble may arise before the final settlement of the steel strike. The wagons and teams are distributed at a number of mills, which resulted in a strike at A. M. Byers & Co.'s works, and other strikes followed. The workmen have selected a committee to confer with the owners, but the manufacturers have not yet appointed their committee to meet the men.

At McKeever.

FRIDAYTON, July 15.—The latest report from McKeever says that the general strike threatened at the National tube works is off for the present, the company having promised the men the advance asked for on the arrival of Manager Flager. The Butt mill men are still out and will remain out until the manager arrives.

In Kittington.

KITTINGTON, Pa., July 15.—The strike at the Pittsburg tube works is off for the present, the company having promised the men the advance asked for on the arrival of Manager Flager. The Butt mill men are still out and will remain out until the manager arrives.

WAS BUSINESS.

Joseph Holt and James Prysor Fight a Dual—Prysor Dead.

DALLAS, Tex., July 15.—At sunrise in Kaufman county, Joseph Holt and James Prysor, who had trouble growing out of a business dispute, met in a lane fifteen paces apart, facing each other with Colt's navy revolvers.

The arrangement was that they should advance and fire until one should fall. The meet was to be made without witnesses. The edge of their friends was, however, hearing the shots, hurried to the scene. They found Prysor dead, shot in four places, while Holt was uninjured. Examination showed that Prysor had fired first, while the first shot from Holt had passed through his pistol hand, forcing him to drop his weapon. Holt at last accounts had not been arrested.

MANGANESE MINES.

A Rich Discovery Made in Texas of Valuable Mineral.

JENISON, Tex., July 15.—At a point about ten miles east of Dallas City, in Grayson county, an enormous deposit of manganese has just been discovered. Two veins have been uncovered. One vein is eighteen inches thick, the other four feet. In these veins are also found large quantities of the most beautiful crystallized ore.

This crystallized ore is more valuable than the black oxide, and is called manganese. The mineral is now discovered in West Hollywood, a California mine of thirty years' experience, who has been prospecting throughout this region. A company has been formed here and the miners will be developed immediately.

AN AVALANCHE OF WATER.

Sweeping Hill and Valley, Carrying Everything Before It.

TRUNIVERSITY, Fla., July 15.—A waterspout burst on the hills south of this city. Hammon Run, the channel of which is not over two feet in width, has increased in size, covering a broad space of ground. The water comes down the hill side in sheets, carrying everything before it, uprooting immense trees, carrying houses and barns from their foundations and taking fences and bridges away.

A number of live stock were drowned. One man was swept down by the tide, but was rescued. Later in the day another avalanche of water came down the hill, overtaking a party of workmen, but fortunately no lives were lost.

Villainous Villain.

NEW YORK, July 15.—Barney Carney who served one term for killing his own brother, who had just stabbed his wife thirteen times, plead guilty to assault in the first degree, in court of general sessions. When sent to prison he had to wait for a week because he would kill his wife, and in court he said: "I'll finish her when I get out this time." He will be sentenced to ten years in state prison.

Tragic Honey moon.

JEFFERSONVILLE, Ind., July 15.—Albert Ross, who was married here on June 30, two weeks ago, shot his wife and himself, killing himself instantly and seriously wounding his wife, who will, however probably recover.

TEST YOUR BAKING POWDER TO-DAY!

Brands advertised in this directory may CONTAIN AMMONIA.

THE TEST:

Place a can top down on a hot stove until heated, then remove the cover and smell. If ammonia will not be released to detect this product, it is safe to use.
